FROM THE EDITOR

GIVE me a new word search magazine and I can't wait to dive in and start finding those hidden words! I love the tough ones that seem so complicated then once you find the words they seem so obvious! This is our third edition of YOU Word Search and the team and I are still having so much fun thinking up topics and finding ways to make the grids interesting.

My favourites are the list of Olympic winners (page 8), perfume names and brands (page 24) and islands and rivers (page 16) – this one makes me want to plan an island holiday!

Our kids' section is packed with puzzles that will also help to get little ones excited about words. I love the list of opposites (page 52) where kids have to look at picture clues to work out the words to find. And how cute is the word-building puzzle where they have to put two pictures together to create new words? In fact, you will probably want to do the kids' section too!

Be sure to email any thoughts or feedback to projects@you.co.za. We would love to hear if you like the big grids or prefer the smaller puzzles and any theme suggestions you may have for the next issue.

Happy hunting!

Elmarie

● The words in the adults' section run vertically, horizontally, diagonally and backwards. In the kids' section the words run vertically, horizontally and diagonally but not backwards.
